

Why Choose BTEC Applied Science ?

BTEC Applied Science will provide you with the opportunity to develop a range of skills, techniques and personal attributes that are essential for successful performance in your working life. This course will appeal to you if you prefer portfolio-based assessment as the qualification is entirely coursework based. The units you will study cover areas of laboratory, environmental, biological, chemical and physical science.

Choose BTEC Applied Science as an option and you will have the opportunity to visit scientific workplaces and to meet with guest speakers from industry. You will also be able to develop your practical and analytical skills which will enable you to increase your understanding of the role and responsibilities of the science technician.

At Alun School,
our experienced teaching team provide expert guidance and tuition in 5 weekly lessons.

BTEC Applied Science

Assessment Information

Equivalent to 1 A level

BTEC Level 3 Subsidiary Diploma - Applied Science.

Combination of 6 units over 2 years

AS Unit 1 - Fundamentals of Science

AS Unit 2 - Working In the Science Industry

AS Unit 4 - Scientific Practical Techniques

A2 Unit 11 - Physiology of Human Body Systems

A2 Unit 15 - Microbiological Techniques

A2 Unit 22 - Chemical Laboratory Techniques

Assessment - non-exam assessment: portfolio, demonstration, project work and evaluation.

Entry Requirements

You should have achieved a grade B or above in GCSE Science, Maths, English or BTEC Science pass.

Progression Routes

The transferable skills and knowledge you will gain through the study of BTEC Applied Science at Alun School will be invaluable in enabling you to access a wide range of courses at university.

BTEC Applied Science will give you an excellent grounding for multiple career opportunities including:

Every year, this course inspires many students to study at university or progress on to vocational qualifications such as the BTEC Higher Nationals in Applied Biology, Applied Chemistry or health-related and other science-related qualifications.

Some students choose to enter employment in a science-related field, in areas such as:

- the chemical industry involved with testing materials
- a quality control technician/analyst
- working for a scientific magazine or journal, editing and proofreading articles
- the forensic science service or using analytical skills in the chemistry industry
