

# Why Choose Health and Social Care?

## Single Award

**Health and Social Care** employs an investigative and practical approach to the study of the subject. You will focus on the needs of individuals and the techniques and professional services aimed at meeting those needs. You will also address the factors affecting and issues involved in the delivery of these services. Areas of study include rights, responsibilities and values, communication in care settings, health and well-being, service provision and practitioner roles.

Choose Health and Social Care as an option and you will have the opportunity to develop key skills in the areas of communication, problem-solving, working with others and improving your own learning and performance.

**At Alun School,**  
our experienced teaching team provide expert  
guidance and tuition in 5 weekly lessons.

# Health and Social Care - Single Award
