

Why Choose Media Studies?

Media Studies enables you to develop and apply your understanding of the media through both analysing and producing media products. The course focuses on developing your creative skills through media production using the latest in digital technology to develop your own media in film, television and print. The key areas for study will include media language, representation, the media industries, audiences and global products. These will be explored in local, national and global settings with a close emphasis on Wales. You will also examine the impact of technology and social media. You will be able to develop your creative media production skills following your own individual areas of interest.

Choose Media Studies as an option and you will have the opportunity to follow work experience placements at the BBC, local radio stations, local newspapers or advertising agencies. You may also have the chance to exhibit films at the Flintshire Film Festival at Clwyd Theatr Cymru or have work published in local and national newspapers.

At Alun School,
our experienced teaching team provide expert guidance and tuition in 5 weekly lessons.

Media Studies
