

Why Choose Sociology?

Sociology is the study of how society is organised and of how we experience life. It is all about human interaction, social structure and culture and deals with global issues such as the environment and migration. Our course will enable you to discover how social changes affect people at every level of their life; it will challenge you to think about these issues with an open and balanced mind, through debate and the sharing of ideas.

Choose Sociology as an option and you will have the opportunity to develop your critical thinking skills and to enhance your ability to research, analyse and formulate an argument. If you have ever found yourself questioning issues concerning social power, culture, identity or religion, Sociology may help you find the answers.

At Alun School,
our experienced teaching team provide expert
guidance and tuition in 5 weekly lessons.

Sociology
